## FOR HOUSE OF REPRESENTATIVES.

GEORGE H. SNOW,

OF WAKE.

ELECTION 1ST THURSDAY IN AUGUST.

## LOCAL BRIEFS.

The same old dearth of items reigned  
at the Mayor's Court yesterday.

The Baptist Sabbath School has  
organized a Young Mans' Bible Class.

Two fine horse wagons full of  
tomatoes came into this market yester-  
day.

Don't forget the meeting of the  
Ladies Sewing Society to-morrow after-  
noon.

R. D. Douglas, U. S. Marshal of this  
State, is in the city and registered at  
the National.

About 6 p. m. yesterday, Hillsboro  
street was slightly agitated over a  
runaway mule.

The city scavengers are complained  
of as making things a little worse than  
they were before.

Sweet potatoes are now coming into  
our market. Prof. Fairchild had a  
load in yesterday.

The rain of Friday was general  
throughout the county, and adequate  
for the present purposes.

All the churches in the city will be  
opened for services to-morrow, save the  
Catholic. Father McNamara is, we be-  
lieve, still absent.

A postoffice has been established at  
Wake Forest. Postal matter for the  
new office should be addressed: "Wake  
Forest College, Wake county, N. C."

Few Congressmen are at the water-  
ing places this season than was ever be-  
fore remarked. They do not like to  
heat that back salary grab affair talked  
about.

Calvin Goodwin, of St. Mathews'  
Township, was yesterday committed to  
jail for committing an assault on Wm.  
Nunn. He could not give the required  
bail bond.

The decision of the Supreme Court  
on the important railroad case is looked  
for with much interest by the legal  
profession. It will probably be filed to-  
morrow evening.

Sub street overseers have a very hard  
time in Raleigh, being compelled to sit  
down all day to look over one hand at  
work, and get only a salary double that  
of the street hand.

The new cotton plow and chopper  
recently invented by Mr. C. A. Reams,  
of this city, will be on exhibition to-  
morrow at the hardware store of Messrs.  
Julius Lewis & Co.

Mr. Gilbert, the Republican nominee  
for the House of Representatives, nor-  
mally at Auburn, St. Mary's Township,  
yesterday. He was accompanied by C.  
J. Rogers, the ex-postmaster.

John Reed, of Warren county, formerly  
the Revenue Collector of this District,  
with his Chief Clerk, Thomas  
Reynolds, is in the city for the purpose  
of making a final settlement with the  
government.

We learn that the wooden building  
on Fayetteville Street, now occupied by  
M. Besson, the well known merchant  
tailor, is to come down before long to  
make way for a handsome three story  
brick structure.

We were shown yesterday by F. H.  
Stith a specimen of copper ore from his  
mines in Davidson, assaying forty-five  
per cent. Also a nugget of chrysotite  
gold weighing two pennies weights. The  
gold mine has been sold to a Company  
of Northern gentlemen.

The local chief of this paper, Capt.  
E. C. Woodson, left yesterday afternoon  
on a visit to his good lady, who is at  
present sojourning at Lockville. He  
carries with him our good news. He  
has joined the noble army of cold wa-  
ter martyrs. In other words, on last  
Friday evening he connected himself  
with the Friends of Temperance. We  
lift up our voice in thanksgiving and  
praise.

PROMPT'S NEW TONSONIAL SA-  
LOON.—The new tonsonial saloon of  
Prompt, under the Fisher building, is  
now complete, and makes one of the  
prettiest establishments of its kind in  
the city. It is thoroughly ventilated,  
cool, cozy and comfortable, and the  
light is splendid. We wish our old  
friend continued success in his new  
quarters.

## HERE AND THERE—

At the Vassar College commencement  
the other day, one of the loveliest of  
the "sweet girl graduates" fractured her  
lower jaw in two places while delivering  
an address in German and chewing gum  
at the same time.

The average postmistress is about to  
succumb through the loss of sleep. It  
is frequently near daylight, when, with  
arms akimbo on the area wall, she gets  
through telling her next door neighbor  
the contents of every postal card mailed  
at the same time.

"In the construction of the buildings  
on the new Fair Grounds, in the grading  
of the track, the building of culverts,  
etc., the Building Committee are making  
rapid headway. All the buildings have  
been commenced, some of them are  
finished and the painting on these will  
be commenced in a few days.

The buildings are going up under the  
immediate superintendence of Mr. Jacob  
S. Allen, of the firm of Betts, Allen &  
Co., of this city. Mr. A. is an energetic,  
skillful builder, and is doing his duty  
faithfully. He is ably assisted by Mr.  
T. A. Kingsley.

A large force is at work on the race  
track, under the superintendence of Mr.  
James D. Royster, of this city, who has  
had considerable experience in manag-  
ing large gangs of workmen. The work  
progresses favorably, and when finished  
we shall have the best half-mile race  
track in the country. It is being con-  
structed in the most substantial manner,  
of the best material and on the latest  
and most approved plan.

In short, the Executive Committee are  
determined that the Fair Grounds of the  
North Carolina Agricultural Society  
shall be second to none in America, and  
shall form one of the handsomest Parks  
in the country.

SUMMER RESORTS.—We published  
yesterday an analysis of the water of the  
Catawba White Sulphur Springs. We  
learn from a gentleman who has been  
sojourning there for several days, that  
the accommodations are very good, and  
that the place is a delightful summer  
resort.

A sea-faring man, who was recently  
garrisoned, gives the following description  
of the bride and her apparel, which we  
think will put some of the "society"  
papers to blush: My wife is just as  
handsome a craft as ever left the mill-  
inery dry docks, is clipper built, and  
with a figure head not very often seen  
on small craft. Her length of keel is  
five feet eight inches, over all five feet  
eleven inches, displaces twenty-seven  
cubic feet of air; of light draught, which  
adds to her speed in a ball room; full  
in the waist, spars trim. At the time  
she was spliced she was newly rigged,  
fore and aft, with standing rigging of  
laces and flowers, mainsail part silk,  
with forestay of Valenciennes. Her  
frame was of the best steel, covered  
with whalebone stanchions. This rig-  
ging is intended for fair weather cruis-  
ing. She has also a set of storm sails  
for rough weather, and is rigging out a  
small set of canvas for light squalls,  
which are liable to occur in this lati-  
tude sooner or later. I am told, in run-  
ning down the street before the wind, she  
answers the helm beautifully, and can  
turn around in her own length if a  
handsomer craft passes her.

Another very accessible watering  
place to citizens living in this section of  
the State is Buffalo Springs, Mecklen-  
burg county, Virginia. Two of our  
prominent citizens, J. B. Batchelor and  
C. M. Bushee, Esq., who have attended  
these Springs for several seasons, speak  
in the most complimentary terms of the  
medicinal virtues of the waters, by the  
use of which they have both been much  
benefited in health.

Col. Thomas F. Goode, a distin-  
guished citizen of Virginia, has pur-  
chased an interest in the Buffalo  
Springs, and publishes certificates from  
several well known gentlemen, among  
them D. T. F. Mason, giving very flat-  
tering testimonials to the curative  
powers of the waters. For the cure of many  
diseases Buffalo Springs are becoming  
widely celebrated and to the seekers of  
pleasure and recreation they also offer  
many attractions.

We recommend to our citizens who  
cannot spare the time to go very far  
from home the propriety of trying Buf-  
falo for this season, as we well believe  
they will not regret the trip.

OUR CHURCHES TO-DAY.—Divine  
services will be held at the following

others in the city are earnestly and  
cordially invited to attend. Gentle-  
men ushers will be present to conduct  
visitors to pews which are always free.

## THE ELECTION, AUGUST 7TH.

The election to be held in this State on the first Thursday in August, on the constitutional amendments, is one of vast importance to our people.

It involves vital changes in the organic law of the State.

For the information of voters, we publish on our fourth page, and shall keep standing until the day of election, the clauses in the Constitution proposed to be altered, together with the eight amendments that passed the Legislature by the requisite constitutional majority, and which are to be submitted to the people for approval or rejection, on Thursday, the seventh day of August next.

All the amendments proposed are necessary and important, and those who favor them should not fail to vote.

## IMPORTANT WORK FOR THE LEGISLATURE.

The Legislature will have some important work on its hands next winter.

We take it for granted that the Constitutional amendments will be ratified in August.

This will relieve the General Assembly of certain impossible barriers which have clogged its way since 1868.

**THE DEBT OF THE STATE MUST BE ARRANGED IN SOME WAY.** It is, presumably, that the *mortgage on all the real and personal estate in North Carolina* in favor of the holders of our State bonds, will be lifted on the seventh of August, by the adoption of the amendment relating to the public debt.

This will enable the Legislature to compromise the honest debt of the State on such terms as will be just and fair to all parties. Heretofore that body has been embarrassed at every step by the Constitutional obstacles which have staled it in the face.

**THE SUBJECT OF THE SPECIAL TAX BONDS** will require some attention. A suit is now threatened by the Northern bondholders, who, armed with the opinions of Reverdy Johnson and Caleb Cushing, Esq., have voted money to institute legal proceedings against the State. All that legal ingenuity can do will be done to compel the payment of the fraudulent bonds that have been saddled upon North Carolina by Littlefield, Swepson & Co. This subject will demand firm and determined action on the part of the representatives of the people. We should teach the bloated speculators who purchased the so-called North Carolina special tax-bonds with full notice of their fraudulent character, that we will never submit to the outrage swindle, until compelled to do so by the highest legal tribunal in the land. And if compelled to pay, in the end, we will do it under protest, and denounce such compulsion as a gross and flagrant wrong.

The Legislature will also have an opportunity of RELIEVING THE UNIVERSITY. This could not be done heretofore, because under the Constitution, it is inseparably connected with the common school system of the State. This unnatural connection has brought the University to an untimely and disgraceful dissolution. If the amendment on this subject is adopted in August, the management of the University will be put in the hands of the General Assembly, to devise such laws and regulations as are expedient and necessary. The University must be resuscitated, and it can be done next winter by the Legislature, provided the Constitution is changed.

**IMPORTANT RAILROAD QUESTIONS** will be forced upon the General Assembly. It is evident that a railroad war is brewing, and that attempts will be made by foreign companies to get control of the lines of travel in this State. A fight is to be made against the moneyed monopolies that have obtained such strong footholds in other States, and have made whole sections tributary to their interests and overgrown power. "Monopolies are contrary to the genius of a free people and ought not to be allowed." It behoves the representatives of the people to be on the alert against the insidious approaches of the TYRANT, and thwart his first attempt to throttle the independence and crush the rights of our people.

It will require all the wisdom, boldness and patriotism of our Legislators to guard the threatened welfare of the State, and to protect North Carolina from the harpies who will hover over her as if she were an easy prey.

Elections are to be held on the seventh of August in several counties, to fill vacancies occasioned by the resignations of members in both branches of the Legislature.

The people should see to it that men of ability, boldness and character are chosen—men who can fearlessly defend the rights of their constituents, and uphold and maintain the honor of the State. This is no time for timidity and inaction. We want brave, outspoken, able men in our Legislative halls, men who have the nerve to meet the emergencies that may arise—men who are honest, faithful and capable—men who know the interests of the people and their rights, "and knowing dare maintain them" by their voices and their votes.

## GIVING CREDIT TO NEWSPAPERS.

We have never been sensitive on the subject of our exchanges copying from us without credit.

We have seen some complaints that our news Editor does not give credit to the papers from which he gets the items that fill his column. The reason that credit is not ordinarily given is because the news is condensed, frequently to the space of one and two lines, in order to give the greatest variety consistent with the small space at his command. The Order seems to be growing most rapidly in the States of Iowa—which now has 1,750 granges—Missouri, Indiana, Illinois, Minnesota, Nebraska, Wisconsin. In response to requests from different States, several additional general deputies have been recently sent out by the National Grange to organize subordinate granges. There are at present State granges in Arkansas, California, Georgia, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Mississippi, Missouri, Nebraska, North Carolina, Ohio, South Carolina, Tennessee, Vermont and Wisconsin.

[From the Wilmington Star.]

### What Preparation is Making

For the approaching election by the Central Executive Committee of the Democratic Conservative party? Shall we have any tickets printed? Have any instructions for poll-holders been prepared?

It is time these important matters were attended to. It is not three weeks until the election. Time is sharply short, gentlemen of the Committee, What are you doing?

We well know the contest is not strictly partisan, but there should be some preparation made for the election by somebody. Let the Central Committee which acted at the last election prepare at once, if they have not done so, the forms for tickets, the instructions to poll-holders and all necessary information. The time is barely sufficient to reach all the post-offices.

### THE ORE KNOB COPPER MINE.

We have heard that an article recently appeared in the *Baltimore Gazette*, written by a distinguished and scientific source, giving an account of the unexampled richness of the Ore Knob Copper Mine, situated in the county of Ashe, in this State. We overlooked the article, but we notice that the Wimington *Journal*, in an editorial on North Carolina and her ores, refers to a letter in the *Baltimore American*, written by Prof. Hunt, of the Boston Institute of Technology, in relation to this

mine in Ashe county, which is pronounced unprecedented in the annals of copper mining in this country. The *Journal* gives the following account of the Ore Knob Mine:

"The mine was opened in 1855 and 1856 by a company of residents of a neighborhood county, and yielded large quantities of rich ore, but difficulties grew out of the conflicting interests of the large number of small proprietors, and the mine was closed, proved, until last March. Some notion of the value of the ore may be gained from the fact that the material now raised from the lode, at a cost of not greater than that of raising coal, is today worth at the Baltimore smelting works, from \$125 to \$200 per ton. The amount of ore raised from the mine since the commencement of operations this spring, and now lying on the ground, as estimated by measurement last week, were about 1,400 tons, equal to about 400 tons of metallic copper."

## FACTS ABOUT THE PATRONS OF HUSBANDRY.

—[Washington Correspondence of Baltimore Sun.]—Owing to the rapid growth of the Order of the Patrons of Husbandry, the headquarters of the National Grange will soon be removed from Georgetown, D. C., to Washington, where the secretary's office will hereafter be located. Since the 1st instant about 350 subordinate granges have been organized, making the total number of granges in operation up to date over 4,700, with an aggregate membership of about 350,000. The Order seems to be growing most rapidly in the States of Iowa—which now has 1,750 granges—Missouri, Indiana, Illinois, Minnesota, Nebraska, Wisconsin, Michigan, Minnesota, Mississippi, Missouri, Nebraska, North Carolina, Ohio, South Carolina, Tennessee, Vermont and Wisconsin.

We are now taking orders for a limited number of these celebrated Self-Feeding Gins. We have only been able to fill a part of the orders we have received, and those who purchase will greatly oblige us by sending in their order as early as possible, in order that they may get their gins in time. Those gins never fail to give entire satisfaction. It requires no experienced grinders to attend it; separates from the Cotton, sticks, clods of dirt, sand, small pebbles, &c. gins are easily cleaned; runs lightly; is well made and very durable. We shall be pleased to send pamphlet, containing testimonials from well known parties, to any person upon application.

WATERING PLACES.

The builders of the monument at Madison, Wisconsin, to Leif Erickson, first discoverer of America, should pause a little. Other claimants may come forward. Last year a curious stone with an inscription, found on a Brazilian plantation, was sent to the Historical Society at Rio Janeiro, and has just been deciphered by Signor Netto, a distinguished archaeologist. The inscription is Phenician, and commemorates the adventures of certain Sidonians, who having sailed from the Red Sea in the reign of King Hiram, steered along the coast for many months. Full particulars of the number of vessels and voyages are given. Signor Netto does not believe this Hiram to be the king who arrested Solomon, but a later monarch of the name, who reigned about four hundred and fifty years before Christ. Phenicia was at the height of her glory, and her people were the navigators of the world. Here are Senator Netto's conclusions from this remarkable inscription: "I gather," says he, "that the same thing happened to these Sidonians that happened to Pedro Alvarez Cabral two thousand later, when not knowing of Brazil he found himself unexpectedly off its shores. The only difference is that Cabral sailed from north to south, while the Phenicians voyaged from south to north. Like Cabral, fleeing from the storms raging from the Cape of Good Hope almost to Senegambia, they steered into the high seas, and seized by the famous equatorial current, they unexpectedly came upon the Brazilian shores."

Secretary Robeson is building some \$30,000 stables at the Brooklyn navy yard, and the New York Sun wants to know what he is building them for. "We don't know," says the Courier Journal, "as we are not in Admiral Robeson's confidence, but we presume he is building them for the accommodation of the horse marines."

"It is plain to see that in several towns there are demagogues, disappointed office-seekers and axe-grinders have crept into the clubs and granges, and by the use of means with which they are familiar, they are endeavoring to turn the popular movement for selfish and personal ends. The farmers, as a class, have no lot nor part in any such plan. What they want is simple justice, and decent respect for their rights by corporate monopolies, and they know that any stepping down or lowering of the objects of their organization into a fight and scramble for the loves and fishes of county office will serve to degrade their cause and hinder instead of aid it." — Exchange.

## THE CONSTITUTIONAL AMENDMENTS.

In order that the people may vote understandingly on the amendments to the Constitution, at the ensuing election, we deem it necessary to give in full the eight clauses in that instrument proposed to be altered, together with the alterations themselves.

### FIFTH: IN RELATION TO THE PUBLIC DEBT.

The present Constitution, Article IX, Declaration of Rights, provides as follows:

"Sec. 6. To maintain the honor and good faith of the State unshaken, the public debt, regularly contracted before and since the rebellion, shall be regarded as inviolable and never be questioned; but the State shall never assume or pay, or authorize the collection of any debt or obligation, express or implied, incurred in aid of insurrection, or rebellion against the United States, or any claim for the loss or emancipation of any slave."

This section is amended by striking out the first clause down to and including the word "but," so that the amended clause in Article I will then read:

"Sec. 6. The State shall never assume or pay, or authorize the collection of, any debt or obligation, express or implied, incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave."

Another alteration in regard to the public debt is provided for in the same amendment, by striking out section 4, Article V of the present Constitution, which is as follows:

"Sec. 4. The General Assembly shall, by appropriate legislation and by adequate taxation, provide for the prompt and regular payment of the interest on the public debt, and after the year 1830, it shall lay a specific annual tax upon the real and personal property of the State, and the sum thus realized shall be set apart as a sinking fund, to be devoted to the payment of the public debt."

So that the above section will be entirely stricken out and the amended Constitution will not make it compulsory on the Legislature, by express language, to provide for the payment of interest and principal of the public debt.

### SECOND: IN RELATION TO THE OFFICE OF SUPERINTENDENT OF PUBLIC WORKS.

Article III, section 1, of the present Constitution names among the other officers of which the Executive Department shall be composed, a Superintendent of Public Works, who shall be elected for a term of four years by the qualified voters of the State, at the same time and places, and in the same manner as members of the General Assembly.

This amendment proposes to strike out the words "Superintendent of Public Works" wherever they occur in the Constitution, thus abolishing that office.

### THIRD: IN RELATION TO THE STATE CENSUS.

In the present Constitution, Article IV, the following provision is made for taking a State Census:

"Sec. 5. An enumeration of the inhabitants of the State shall be taken under the direction of the General Assembly at the first session after the return of every enumeration taken as aforesaid, or by order of Congress, that each Senate District shall contain, as nearly as may be, an equal number of inhabitants, excluding aliens and Indians not taxed, and shall remain unaltered until the return of another enumeration, and shall at all times consist of contiguous territory; and no county shall be divided in the formation of a Senate District, unless such county shall be equitably entitled to two or more Senators."

The amendment proposed to this Article is to strike out all that precedes the words, "the said Senate Districts," in section 5, and to strike out the phrase "as aforesaid, or," the parts so stricken out relating to the census, so that the section as amended will read:

"Sec. 5. The said Senate Districts shall be so altered by the General Assembly at the first session after the return of every enumeration taken by order of Congress, that each Senate District shall contain, as nearly as may be, an equal number of inhabitants, excluding aliens and Indians not taxed, and shall remain unaltered until the return of another enumeration, and shall at all times consist of contiguous territory; and no county shall be divided in the formation of a Senate District, unless such county shall be equitably entitled to two or more Senators."

The object of this amendment is to do away with the unnecessary expense of taking a State census under the direction of the General Assembly, inasmuch as the same work is done by the national Government.

### FOURTH: IN RELATION TO EXEMPTIONS FROM TAXATION.

The present Constitution, Article V, Revenue and Taxation, provides as follows:

"Sec. 6. Property belonging to the State or to municipal corporations, shall be exempt from taxation. The General Assembly may exempt cemeteries, and property held for educational, scientific, literary, charitable or religious purposes; also wearing apparel, arms for master, household and kitchen furniture, the mechanical and agricultural implements for mechanics and farmers, libraries and scientific instruments, to a value not exceeding three hundred dollars."

The amendment proposed to change this section by inserting after the word "instruments," the words "or any other

personal property," so that the section as amended will read:

"Sec. 6. Property belonging to the State, or to municipal corporations, shall be exempt from taxation. The General Assembly may exempt cemeteries, and property held for educational, scientific, literary, charitable or religious purposes; also wearing apparel, arms for master, household and kitchen furniture, the mechanical and agricultural implements for mechanics and farmers, libraries and scientific instruments, to a value not exceeding three hundred dollars."

**FIFTH: IN RELATION TO THE UNIVERSITY.**

The present Constitution, Article IX, Declaration of Rights, provides as follows:

"Sec. 5. The University of North Carolina, with its lands, emoluments and franchises, is under the control of the State, and shall be held to an inseparable connection with the free public school system of the State."

The amendment proposes to strike out this section entirely, thus severing the University from the common school system, and insert the following in lieu thereof, so that the amended Constitution shall read:

"Sec. 5. The General Assembly shall have power to provide for the election of trustees of the University of North Carolina, in whom when chosen shall be vested all the privileges, rights, franchises and endowments heretofore in any wise granted to or conferred upon the trustees of said University; and the General Assembly may make such provisions, laws and regulations, from time to time as may be necessary and expedient for the maintenance and management of said University."

The following sections of Article IX, relating to the University, are also stricken out:

Sections 13, 14 and 15, relating to the appointment of trustees by the Board of Education, and the officers powers and rights of the trustees. These matters will hereafter devolve on the Legislature, if the amendment relating to the University is ratified.

### SIXTH: IN RELATION TO THE SESSIONS OF THE GENERAL ASSEMBLY.

The present Constitution, Article II, Legislative Department, provides as follows:

"Sec. 2. The Senate and House of Representatives shall meet annually on the third Monday in November, and when assembled shall be denominated the General Assembly."

This section is to be amended by striking out the word "annually," and inserting in lieu thereof the word "biennially," so that the section amended shall read:

"Sec. 2. The Senate and House of Representatives shall meet biennially on the third Monday in November, and when assembled shall be denominated the General Assembly."

This amendment also strikes out the word "annually" in section 6, Article III, and inserts the word "biennially" in reference to the requirement of the Governor to communicate to the General Assembly each case of reprieve, commutation or pardon.

### SEVENTH: IN RELATION TO THE CODE COMMISSION.

The present Constitution, Article IV, Judicial Department, makes the following provisions concerning the Code Commissioners:

"Sec. 3. Three Commissioners shall be appointed by this Convention to report to the General Assembly at its first session after this Constitution shall be adopted by the people, rules of practice and procedure in accordance with the provisions of the foregoing section, and the Convention shall provide for the Commissioners a reasonable compensation."

Sec. 3. The same Commissioners shall also report to the General Assembly as soon as practicable, a code of law of North Carolina. The Governor shall have power to fill all vacancies occurring in this commission.

EIGHTH: IN RELATION TO FEDERAL AND OTHER OFFICE-HOLDERS.

The present Constitution, Article XIV, provides as follows:

"Sec. 7. No person shall hold more than one lucrative office under the State at the same time: Provided, That officers in the Militia, Justices of the Peace, Commissioners of Public Charities and Commissioners appointed for special purposes, shall not be considered officers within the meaning of this section."

The amendment proposes that this section shall read as follows:

"Sec. 7. No person who shall hold any office or place of trust or profit under the United States or any department thereof, or under this State or any other State or Government, shall hold or exercise any other office or place of trust or profit under the authority of this State, or be eligible to a seat in either House of the General Assembly: Provided, That nothing herein contained shall extend to officers in the Militia, Justices of the Peace, Commissioners of Public Charities or Commissioners for special purposes."

There were eighteen amendments originally proposed, but the eight above specified were all that passed the General Assembly by the requisite two-thirds majority.

These eight amendments are to be submitted separately for ratification or rejection, at the election to be held on Thursday, the seventh day of August.

Any person qualified to vote may vote for or against each amendment, with a written or printed ticket with the words "For Amendment," or "Against Amendment." The amendments that receive the majority of the popular vote will be ratified. A part or all of them may be either ratified or rejected.

Dooley's Yeast Powder cannot be exceeded in making light, sweet Rolls, Biscuits, Waffles, Corn Bread, &c. It is always ready.

The amendment proposed to change this section by inserting after the word "instruments," the words "or any other
